

BAKERY SYSTEMS

Fresh Bread Loaves ■ Snack Goods ■ Cakes & Pastry Goods ■ Packaged Cookies and Pastries ■ Frozen Bakery Goods

These bakery systems are designed for the efficient flow of bread and baked goods throughout the supply chain from the bakery to grocery stores, mass merchandisers, restaurants and convenience stores. When full, baskets stack securely for easy transport and merchandising. When empty, they cross-stack and nest for back room and truck space savings. Combine with pallets and dollies for a full system to quickly move, store, ship and merchandise all types of bakery items from bakery to retail.

44 x 52 Bread Pallet
(See p. 49)

ORBIS Plastic Pallet Designed for the Bakery Industry

- > 100% recyclable plastic pallet
- > Fits four 26" x 22" baskets per layer
- > Tolerates temperatures from -10°F to 150°F
- > Easy interface with automation
- > Easy to clean in any application
- > Easy to clean, does not absorb odor or moisture
- > See page 49 for more information
